# Susanta Banik

Web Dev | Python Dev | Intern at Unified Mentor Private limited| BS  
in AI&DS [IIT Jodhpur] |B.TECH in CSE(AIDS) [TECA] |  
Agartala, Tripura, India

## Summary

Hi, I am Susanta Banik, I am 19 years old and I have just completed my class 12th this year a , I am from Science Background and also have CS in my subjects, and now pursuing Dual degree as B.S/ B.Sc. in Applied AI & Data Science from IIT Jodhpur and B.Tech in CSE(AIDS) from Techno College of Engineering Agartala,.

I have skills at web development with language of HTML, CSS, JAVASCRIPT, PHP and MYSQL, also learnt programming languages: Python, JAVA and currently learning C.

I have made many projects on Web development like:

School Database management system,

shopping website,

House Selling website,

Resturant Management system,

Examination website, etc. while learning,

Basic Calculator,

Portfolio Website,

Digital panchayat System.

Also, I made many tools or scripts with Python:

Calculators including: Simple Calculator, Age Calculator, Calculus Calculator,

then Automatic typer that can automatically send any text how many times you want and at a proper interval,

Weather tool,

Language translation and detection tool,

quiz game tool that generates random questions and take answer from user and match whether the answer is correct or not I have made this with Tensorflow LSTM layers,

A Simple Stock market predictor that can give buy and sell decision along with predicted price and profit with Tensorflow LSTM layers upto 512, and many more.

But have not made anything with C and Java.

I am an Intern as Full Stack web developer in Unified Mentor Private Limited and a student but I upload my Python works, websites on my

GitHub page:<https://github.com/Susanta2006>

Thank You for Visiting my profile

---

## Experience

Unified Mentor Private Limited

Full Stack Web Developer

April 2025 - Present (2 months)
